K400S Antenna Mount

General Specifications

- Deluxe Medium Duty Trunk/Hatchback Mount.
- UHF Mounting Base, adjustable position.
- Black Finish.
- Power Rating: 500 watts FM, 700 watts PEP SSB.
- Coaxial Cable: 13.5' RG316 Teflon cable with SMA connector, PL259 adapter included.

Installation Instructions

1) Choose desired mounting location on vehicle to ensure maximum strength of mount and best performance of antenna.
2) When best location is determined, fasten mount to vehicle by tightening allen set screws. If antenna requires vehicle ground, fasten set screws through paint to ensure contact to metal.
3) Route coaxial cable from antenna mount to radio.
